### **GOVERNMENT / STATE NEWS**

The government's project of "anti-crisis shield" act has been passed in Polish Sejm (Parliament) on Saturday morning.

The project of the act is now processed in Senate – where new amendments to the act are declared to be submitted (but rather only regarding voting regulations added inappropriately by PiS) – subject to Sejm's approval once again.

The government's representative announced today that further measures may be introduced on Tuesday especially to better control restrictions on movement and limit of gatherings.

Due to the epidemic state, the Central Statistical Office suspended release of quick and preliminary reports on consumer price indices. This means that data will be available later than usually.
